Hull, who also acted as guide for the party. Mr. or D. M. Everyone in the party express themselves that it is the most interesting place they ever visited. After enjoying two nights at the Canyon, with fine music interspersed by theatrical burlesques, they wound their way back to Flagstaff, arriving here on Wednesday evening. A good time was had and all were highly pleased with the trip and say that they will return some day and explore the Canyon at a greater length. OBITUARY.

On July 11th, Grace McAllister, aged 11 years, died and was laid to rest in our little cemetery. Little being known as to the cause of death, beyond the fact that the symptoms resembled those usually accompanying diphtheria. The grief-stricken parents, looking at their great loss optimistically, were about to resume their quiet life, when once more, on July 22, the dark angel entered their home again, this time claiming for its own, little Alexander, aged 5 years. This little sufferer had been bariel but one day, when the third time death came and Winifred, aged 9, was called away to a better and happier home.

It is but poor consolation to the mother and father, to be told that their loved ones are better off in heaven, yet such we are taught to believe.

A sympathetic community has kindly extended a helping hand to Mr. and Mrs. McAllister in their moments of sorrow, and they desire here to return thanks.

OLD GRIZZLY.

The Examination of Hon. A. W. Callen for the killing of Charles and Work at Pueritas.

The first part of last week at a mining camp near Walnut Grove, 35 miles southwest of Prescott, Hon. A. W. Callen shot and killed two men, Byron Charles and R. K. Works, in a dispute over a mining claim. The following taken from the Prescott Courier was elicited at the preliminary examination:

"In the preliminary examination of A. W. Callen, before Judge Fleury, yesterday morning, R. J. Butler testified that Charles first fired two pistol shots at Callen; that Charles and Work fell close together and within fifteen feet of the house. Jesse Jones, who was in Callen's cabin, heard four shots in quick succession about 7 p. m., the first three very rapid, two of them pistol shots. Mrs. Barlow, the housekeeper, was in the garden, heard loud talking and Mr. Butler exclaimed, 'they're going to kill Callen.' and Work told Charles he'd 'stay with him,' then came two or three shots and two louder reports; saw two bullet holes in the house. Mr. C. stated, in substance, that the two men came to his place three months ago, asked him to tell them of a good mining location, and he showed them an abandoned claim near his house; they located, worked, found good rock, asked C. to take the extension, which he did; having their claim surveyed and finding it to be only 1000 feet in length, they called for 500 feet of C's extension; the latter stated that he had partners, and couldn't deed it to them, even were he so disposed. On Monday evening last Callen passed by their claim and the three men walked to C's cabin, talking the matter over, when the two men called for a deed to the 500 feet only to be again refused. Charles then suggested to Work, as nothing could be done 'with the old s---', let's fix him."

Work then struck Callen across the neck with a club; Callen started for his room; Work called to Charles to 'shoot the old s---.' Callen said, 'don't shoot till I get a gun and we'll all die together.' Charles fired two shots as Callen went in the door. Callen returned with his shot gun, saw a pistol raised in Charles' hand, fired on Charles then on Work, killing both instantly; didn't know at the time he fired whether Work was armed or not; that he had been on most friendly terms with deceased and no ill feeling had previously existed between them. In conclusion, Judge Fleury remarked that the evidence was such that Mr. Callen could be released then and there, but he deemed the better policy for all parties at interest to have an investigation by the grand jury, and he fixed the bail at \$2,500.
